KUWAIT

- 1. The Operational Deployment Zone provision as defined and referenced in Solicitation SP0300-02-R-4003, and which is incorporated as part of The Public Warehousing Company (PWC) KSC resultant contract SP0300-03-D-3061 / 3070, is hereby implemented. This zone will be referred to hereafter as the "fraq Deployment Zone".
- This modification establishes separate ordering and delivery requirements for Operation Iraqi Freedom (OIF) initiatives in the country of Iraq area of operations. The contract number hereby established for ordering, receiving, disbursing, and billing purposes is SP0300-03-D-3067. The Statement of Work (SOW) is incorporated into this modification by reference to the aforementioned solicitation and resultant contract. Orders under this contract may be placed as early as 01 July 2003. Requirements under this contract could increase as much as twelve-hundred (1200) % over the estimated contract dollar value. This zone will include all delivery point(s) to authorized customers within the country of Iraq. For this deployment, FOB is changed from Origin to Destination. It is estimated that the frequency of deliveries will be 2 or more times per week, per delivery point(s). The number of deliveries may increase or decrease as required. It is estimated there will initially be approximately twenty-four (24) Army delivery sites and three (3) Air Force delivery sites. Multiple delivery points may be on the same base. The number of delivery points may fluctuate. It is the Government's intention to provide a lead-time of six (6) days for these deliveries, but due to operational necessities this lead-time may need to be reduced in some instances. PWC delivery trucks will travel as part of a U.S. military escorted convoy. This operational process could be subject to change should the zone achieve a more stable environment and transition. The round trip from the PWC distribution platform in Safat, Kuwait could vary from one (1) day for the closest proximity customers to seven (7) days for the farthest proximity customers. Actual delivery sites, delivery schedules, and estimated requirements will be furnished to PWC as soon as this information is finalized. Costs incurred by PWC, which are specifically associated with delivery to deployment site(s) and which can not be recouped throughout the existing cataloged prices (distribution fees), may be recouped as outlined below.
- 3. Within this operational deployment zone, it is DSCP's intention to initially provide PWC with product to be receipted, stored, handled, and distributed to end user customers as Government Furnished Material (GFM). For the purpose of this modification, Operational Rations GFM is defined as, but not limited to, Unitized Group Ration A, Unitized Group Ration Heat and Serves, Individual Feeding Rations, and Humanitarian Daily Rations. GFM will also include, but not limited to, Government owned Line Item A stocks from other Prime Vendors. It is anticipated in the near future a transition from Operational Rations to Line Item "A" (Class I Prime Vendor Cataloged Items) will be required to support troop level estimates at 60,000 headcount (subject to change). PWC will be required to source and make available sufficient stock levels to support this requirement. DSCP will provide a transition plan and suggested forecasts for start-up.

- Transport will begin with a full tank of diesel fuel, refueling will be done at military points as needed until appropriate refueling capabilities become available. Trucks will return to PWC upon completion of unloading, and trucks will not be used at the sites for storage purposes.
- The Prime Vendor should be aware that the geographic area of the country of Iraq presents a high security threat to individuals operating in this operational deployment zone.

The ability of Iraqi authorities to maintain order and ensure the security of its citizens and visitors is very limited. Remnants of the former Baath regime, sniper activity from regime loyalists, as well as criminal elements, remain active in the country. U.S.led military operations continue. Travel in all areas of Iraq, including the capital of Baghdad, remains unsafe due to military operations, landmines, banditry, armed political lovalists among the general public, and the possibility of terrorist attacks. The security environment remains volatile and unpredictable in Baghdad, in addition to adjoining and outlining communities. An undeterminable amount of landmines and unexploded ordnance are scattered throughout the countryside and alongside roads, posing a danger to travelers. Some areas of the country are facing food, water, and various other utility shortages. The infrastructure may be weakened and public services are extremely limited. Iraqi authorities have imposed curfews in some areas. Iraqi authorities also can provide only limited assistance to travelers and visitors facing difficulties. Travelers and visitors should pay close attention to their personal security and to take those actions they deem appropriate and/or necessary.

The neighboring countries around Iraq also can pose certain risks to travelers and visitors, with renewed tensions a possibility not to be overlooked. Anyone viewed as having connections to U.S. interests and their sympathizers can be vulnerable targets. This coupled with the presence of indigenous sectarian and loyalist regime groups in Iraq and surrounding countries, requires all travelers and visitors in or traveling through the appropriate countries. Iraq to take appropriate security measures.

到極 马勒斯

Girganian

All foreign travelers and visitors are advised to consult with the U.S. Department of State for updated travel advisories in this geographic region.

- The Prime Vendor's performance while operating in the Iraq Deployment Zone is subject to the terms and conditions of Amendment 4 to the Solicitation, Page 3, "Theater Support". In addition, the Prime Vendor will comply with the following provisions:
- (a) The Prime Vendor must comply with the transportation, logistics, and support requirements contained in the Prime Vendor annex of the operation plan issued by the combatant commander. The combatant commander is the commander of a unified or specified combatant commend established pursuant to 10 USC 161 or any subordinate commander given authority by that combatant commander to issue direction in a specified geographical or functional area.
- (b) Government Direction: Normally, the Contracting Officer or the Contracting Officer's Representative (COR) provides direction to the Prime Vendor, and the Prime Vendor provides direction to its employees. However, in the event a Contracting Officer

an one applications

is not available and emergency action required because of enemy or terrorist activity or natural disaster which causes an immediate possibility of death or serious injury to Prime Vendor personnel or military personnel, the ranking military commander in the immediate area of operations may direct the Prime Vendor or Prime Vendor employees to undertake any action as long as those actions do not conflict with the Prime Vendor personnel's status as noncombatants. The Prime Vendor may submit a request for equitable adjustment for any additional effort required or any loss of equipment which was beyond the scope of the established contract requirements occasioned by such direction.

- (c) Unless specified elsewhere in this contract, the Prime Vendor is responsible for all support required for Prime Vendor personnel engaged in this contract. However, the Government at its sole discretion may authorize or may require the use of certain Government provided logistical and/or in country employee support. The Prime Vendor must comply with all transportation, logistical, and support requirements set forth in the contractor annex to the operation order issued by the combatant commander.
- (d) The Prime Vendor shall comply with and ensure that its employees are familiar with and comply with all regulations, directives, instructions, policies, and procedures; U.S., host country, local, and international laws and regulations, and treaties and international agreements (e.g., Status of Forces Agreements, Host Nation Support Agreements, and Defense Technical Agreements), which are applicable to Prime Vendors in the area of operations. The Prime Vendor will ensure that Prime Vendors is the Vendors of the Vendor employees are aware of and comply with all orders, directives, and instructions issued by the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, health, safety or relations and some long of the combatant commander relating to force protection, and the combatant commander relations are compared to the combatant commander relations and the combatant commander relations are compared to the combatant commander relations and the combatant com interaction with local nationals. - (f) Personnel Data: The Prime Vendor will maintain with the designated Government official a current list of all employees deployed in support of the deployed military force. The Contracting Officer will designate the appropriate automated system(s) to use for this effort.
- (g) The Prime Vendor shall ensure that the following requirements are met prior to deploying an employee in support of deployed forces. Specific requirements for each category may be set forth in the statement of work or contract annex to the operation order. The Prime Vendor shall ensure that:
 - (1) all applicable specified security and background checks are completed.
- (2) all deploying personnel are medically and physically fit to endure the rigors of deployment in support of military operations.
- (3) deploying personnel possess the required licenses to operate all vehicles or equipment necessary to perform the contract in the theater of operations.
- (4) deploying personnel have all necessary passports, visas, and other documents required for Prime Vendor personnel to enter and exit any area of operations.

In the event of a non mandatory evacuation order, the Prime Vendor is required to maintain personnel on location sufficient to meet contractual obligations under this contract.

Except as provided herein, the Government does not assume any liability for any loss incurred by the Prime Vendor in the performance of this Iraq Deployment Zone, including but not limited to, loss of vehicles, personnel, or product. Furthermore, the Government is not liable for any loss resulting from any delays in assembling or deploying the aforementioned military escorted convoy provided to the Prime Vendor by the Government.

								KSC

The terms and conditions of this Modification is applicable to all subcontractors of the Prime Vendor, and will be included in all its applicable subcontracts.

- 7. If additional deployment zone fees are warranted above those distribution prices awarded, these fees will be negotiated at a later date.
- 8. The Government reserves the right to re-negotiate trucking transport fees, once stabilization and transition has occurred in traq, resulting in U.S. military convoys to be no longer necessary:
- 9. The Government hereby incorporates the Blanket Purchase Agreement (BPA) SP0303-03-D-A235, for local purchase authority of Market Ready and Fresh Produce items into this subject contract by this modification.
- 10. On page 2 of subject contract, the paragraph titled Services is revised to read as follows:

The Public Warehousing Company (PWC) KSC, as Prime Vendor for the Middle East Region will provide full service food and non-food distribution support for Kuwait and Qatar customers listed in Solicitation SP0300-02-R-4003, as amended.

11. On page 6 of subject contract, below the distribution fee chart, the example of the distribution fee conversion to the unit of issue distribution price is revised as follows:

Category 9 - Fruits / Vegetables / Tomato Paste (Number 10 Size Cans) - case

12. On Page 7 of subject contract, the paragraph titled Order Lead Times is revised as follows:

The Prime Vendor shall stock items in sufficient quantities to fill all ordering activity requirements. Normal routine deliveries shall be made within six (6) days after order placement. Order placement must be made before 12:00 noon to be considered for the day. For example, orders placed before noon on March 01 would have a required delivery date of March 07. Orders placed after noon on March 01 would have a required delivery date of March 08. Exceptions may apply for remote areas. Delivery shall average 1 to 3 times per week per each customer. Certain customers, such as military hospitals, child care centers, and other facilities serviced may require more frequent deliveries due to such factors as lack of storage capacity.

The Public warehousing Company (PWC) KSC
